You know Denton County will be right here waiting for

 you...

Come back to Texas

It's just not the same since you went away
                           G
Before you lose your accent
                 D                      A
and forget all about the Lonestar State
            Bm                     A
There's a seat for you at the rodeo
           G                        D

                   D
I think I made a mistake
                         G
It's not that easy to take
                        Em
She went to make a deposit
                             A
then she cleaned out her closet
                              D
I guess I'll sit here and wait
```

```
                        D
For her to come back home (I wish she'd come back
home)
                          G
It shouldn't take very long (so long, so long)
                        Em
I bet she misses the sunrise
                   A                              D
and Mrs. Baird's fruit pies but I could be wrong

[Pre-Chorus]
                 G                D
So when you're done doing whatever
                    G                D
and when you're through doing whoever
                   Bm               A
You know Denton County will be right here waiting for
 G
 you...

[Chorus]
              G
Come back to Texas
                     D                       A
It's just not the same since you went away
                        G
I bet you missed your exit
                     D                          A
and drove right on through the Lone Star State
           Bm                        A
There's a seat for you at the rodeo
          G                         D

    Em
I got a premonition
     A
I'm taking a petition
        G                     A
and the whole state's gonna sign

[Chorus]
             G
Come back to Texas
                   D                    A
It's just not the same since you went away
                       G
Before you lose your accent
                 D                   A
and forget all about the Lone Star State
          Bm                        A
There's a seat for you at the rodeo
```

```
         G                      D
and I've got every slow dance saved

             G

There's a seat for you at the rodeo
         G                      D
and I've got every slow dance saved
             Em                   A              G
Besides the Mexican food sucks north of here anyway

             Em                   A              G
Besides the Mexican food sucks north of here anyway
